Hassen BEN ABID

Senior Full-stack Engineer

b.abidhassen@gmail.com +216 95073245

Remote (EU / US Time Zones) | Tunisia in/ben-abid-hassen

PROFILE

Product-focused **Senior Software Engineer (5+ years)** with a track record of scaling early-stage SaaS MVPs into stable, revenue-generating platforms. Expert in **React, Node.js, and Python**. Collaborative founding hire with a strategic focus on bridging the gap between complex technical architecture and business growth in fast-paced environments.

PROFESSIONAL EXPERIENCE

Founding Full-stack Engineer
CaseBlink
Oct 2023 – Oct 2026 | Tunis, Tunisia

- **Established the technical foundation as the first engineering hire**, transitioning the MVP to a production-ready platform that supported scaling to **100+ paying law firm partnerships**.
- Built the technical foundation and documentation that supported the team's expansion from **1 to 8 engineers**.
- Engineered an automated immigration filing engine which **cut case preparation time by 70%** and enabled the pivot to a B2B model.
- Architected the integration between the core API and ML engine to **reliably automate the processing of thousands of legal documents**.
- Refactored the **React** and **Python (Flask)** codebase to **reduce production errors by 40%**, stabilizing the platform for enterprise-level traffic.

Full-stack Engineer
Coorest
Aug 2022 – Oct 2023 | Remote

- Driven a critical **backend migration** from a managed service to a **custom self-hosted infrastructure using Node.js**, resulting in a **40% improvement in API response times** and reduced overhead.
- Architected a **real-time data sync layer** in **React** to handle high-frequency updates, significantly improving frontend performance and reducing **client-side memory usage**.
- Led a **modular codebase refactor** to eliminate technical debt, increasing **feature delivery speed by 25%** and enabling rapid product iterations.

Full-stack Engineer (Promoted from Intern)
Hoopooh
May 2021 – Aug 2022 | Remote

- **Developed scalable RESTful APIs** using **NestJS** to synchronize data across **React** and **Flutter** applications.
- **Developed a media optimization pipeline** using **AWS Elastic Transcoder, S3, and CloudFront**, which improved global content delivery and reduced media loading times by **50%**.
- **Integrated real-time communication features** via Socket.io and **Firebase Cloud Messaging (FCM)**.

Skills

Frontend
- React, Next.js, Redux/Context API, Tailwind CSS, Subframe, Responsive Design

Backend
- Node.js, NestJS, Python (Flask), RESTful API Design

Database & Data Management
- PostgreSQL, MySQL, MongoDB, Firebase, Redis (Caching)

Infrastructure & DevOps
- AWS, Google Cloud, Docker, Kubernetes, CI/CD Pipelines, Automated testing

Leadership & Product
- Agile/Scrum, Technical Documentation, Technical Debt Management, Mentoring

Education

Software Engineering Diploma
Private High School of Engineering and Technology (ESPRIT)
2019 – 2023

Pre-Engineering Cycle
Higher Institute of Applied Sciences and Technology (ISSATso)
2017 – 2019 | Sousse

Exchange Student (Thomas Jefferson Scholarship Program)
Stephen F. Austin State University
2021
